## **1.0 Loan Exit Counseling Completion Extract for Schools (EXTC01 and EXTC05)**

*Loan Exit Counseling Completion Results Report (EXTC01 and EXTC05)* provides school users with a detail report of students who have completed Loan Exit Counseling for the requesting school during a designated timeframe. Output results contain the student's demographic data including reported addresses for borrower, employer, references, and next of kin, as well as, the media type, source, and completion date and time of the Loan Exit Counseling session. This report can be requested ad-hoc through the Web Report List link under the Report tab of the NSLDS Professional Access Web site or as an automatic scheduled report from the School Profile link under the Org tab of the NSLDS Professional Access Web site.

### **Ad-Hoc Completion Report (Report ID = EXTC01):**

The user is able to select an output Type of Extract or Report. With the Extract option, the user can choose between Standard (Fixed Width) or Comma Delimited in either the NSLDS or the Direct Loan format. The asterisk (\*) in the School Branch ID field retrieves all Loan Exit Counseling information for students from all branch campuses of the six-digit school OPEID who completed Loan Exit Counseling. To receive data for a single school branch, enter the two-digit branch code in the School Branch ID field. The user may designate a date range or leave the defaulted dates to receive all cumulative records. The user may choose a sort order of SSN or Last Name/First Name. The asterisk (\*) in the SSN field will retrieve all Loan Exit Counseling student records according to the other selection criteria. The processed data is sent to the SAIG mailbox associated with the NSLDS User ID requesting this report. Output is sent with message classes EXNSFFOP (NSLDS Fixed Width), EXNSCMOP (NSLDS Comma Delimited), EXITFFOP (DL Fixed Width), or EXITCMOP (DL Comma Delimited). Pre-formatted report output is sent with message class EXITFMOP. Additional hints for printing the report in Microsoft Word format are available in the Report List Help page.

### **Scheduled Completion Report (Report ID = EXTC05):**

The user is able to select an output Type of Fixed Width, Comma Delimited or Report (pre-formatted). With the Fixed Width and Comma Delimited options, the user can choose between the NSLDS or the Direct Loan format. The user can request all records for all School Branch IDs associated with the user or request only those records associated with the user's main School Branch ID (00). The frequency of the report (Daily, Weekly, Monthly, and Quarterly; Cancel will end a schedule) will determine the schedule when the output will be automatically generated and sent to the selected SAIG Mailbox. Output is sent with message classes EXNSFFOP (NSLDS Fixed Width), EXNSCMOP (NSLDS Comma Delimited), EXITFFOP (DL Fixed Width), or EXITCMOP (DL Comma Delimited). Pre-formatted report output is sent with message class EXITFMOP. Additional hints for printing the report in Microsoft Word format are available in the Report List Help page.

The following sections contain the layout for the header, detail, and trailer records for the NSLDS format and Direct Loan format Fixed Width extract versions of the output. These extract outputs will include one header record, zero, one or many detail records, and one trailer record. These sections also include the layout of the detail record for the NSLDS format and Direct Loan format Comma Delimited extract versions of the output. There are no header and trailer records

associated with the Comma Delimited extract output either in NSLDS format or Direct Loan format. Each version of the extract requested online will include one or more detail records.

The record layout table contains the position, the data element name, description, field format, and length as they will appear on the fixed width extract file. It also contains the data element name (with related description) and field format as they will appear on the comma delimited extract file (data elements on this extract will be separated by commas).

NEW! The following updates have been made to the last version of this document dated March 12, 2012:

1. Updated the Source field to include a new value of “C” for Loan Exit Counseling records submitted by StudentLoans.gov to NSLDS.

## **2.0 Loan Exit Counseling Summary Extract for Schools (EXTCD1, EXTCD5 and EXTCS1)**

*Loan Exit Counseling Summary Extract (EXTCD1, EXTCD5 and EXTCS1)* provides school users with a summary report of students who have completed Loan Exit Counseling for the requesting school during a designated timeframe. Output results contain the student's SSN, last name, first name, middle initial, the OPEID code of the school the student is exiting, as well as, the completion date and time of the Loan Exit Counseling session. The reports EXTCD1 and EXTCS1 can be requested ad-hoc through the Web Report List link under the Report tab of the NSLDS Professional Access Web site. EXTCD5 can be scheduled according to the needs of the school.

### **Ad-Hoc Summary Reports (Report IDs = EXTCD1 and EXTCS1):**

The ad-hoc Loan Exit Counseling Summary Extract can be requested by Dates or SSNs. Although the report IDs are different, both results utilize the same layout and extract file output message class (by Extract Type, either Fixed Width [EXSMFFOP] or Comma Delimited [EXSMCMOP]). The Dates option provides the capability to request summary results by Beginning and Ending Dates or by the selection of one of the predefined “Completed in Past” ranges. The SSNs option allows up to 19 SSNs to be requested.

- **Ad-Hoc Summary Report by Dates (Report ID = EXTCD1)**

The user is able to select an output Type of Extract or Report (pre-formatted). With the Extract option, the user can choose between Standard (Fixed Width) or Comma Delimited. The asterisk (\*) in the School Branch ID field retrieves all Loan Exit Counseling summary information for students from all branch campuses of the six-digit school OPEID who completed Loan Exit Counseling. To receive data for a single school branch, enter the two-digit branch code in the School Branch ID field. To receive exit counseling session data for loans guaranteed or serviced by a specific GA or Federal Loan servicer, provide a GA or Federal Loan Servicer ID. The user may designate a Beginning Date and End Date (leaving the defaulted Beginning and End Dates will retrieve all cumulative records) or select a predefined “Completed in Past” range (i.e., completed within the past 10, 30, 60, 90 or 120 days) from the dropdown box. The user may choose a sort order of SSN or Last Name/First Name. The processed data is sent to the SAIG mailbox associated with the NSLDS User ID requesting this report. Output is sent with message classes EXSMFFOP (Fixed Width) or EXSMCMOP (Comma Delimited). Pre-formatted report output is sent with message class EXSMFMOP. Additional hints for printing the report in Microsoft Word format are available in the Report List Help page.

- **Ad-Hoc Summary Report by SSNs (Report ID = EXTCS1)**

The user is able to select an output Type of Extract or Report (pre-formatted). With the Extract option, the user can choose between Standard (Fixed Width) or Comma Delimited. The asterisk (\*) in the School Branch ID field retrieves all Loan Exit Counseling summary information for students from all branch campuses of the six-digit school OPEID who completed Loan Exit Counseling. To receive data for a single school branch, enter the two-digit branch code in the School Branch ID field. To receive exit counseling session data for loans guaranteed or serviced by a specific GA or Federal Loan servicer, provide a GA or

Federal Loan Servicer ID. The user may enter up to 19 SSNs without hyphens; at least one SSN is required. The sort order automatically defaults to SSN order. The processed data is sent to the SAIG mailbox associated with the NSLDS User ID requesting this report. Output is sent with message classes EXSMFFOP (Fixed Width) or EXSMCMOP (Comma Delimited). Pre-formatted report output is sent with message class EXSMFMOP. Additional hints for printing the report in Microsoft Word format are available in the Report List Help page.

### **Scheduled Summary Report (Report ID = EXTCD5):**

The user is able to select an output type of Fixed Width, Comma Delimited or Report (pre-formatted). The frequency of the report (Daily, Weekly, Monthly, and Quarterly; Cancel will end a schedule) will determine the schedule when the output will be automatically generated and sent to the selected SAIG Mailbox. The user can also request all records for all School Branch IDs associated with the user, or request only those records associated with the user's main School Branch ID (00). For SAIG delivery with extract type, output is sent in message classes EXSMFFOP (Fixed Width) or EXSMCMOP (Comma Delimited). Pre-formatted report output is sent with message class EXSMFMOP. Additional hints for printing the report in Microsoft Word format are available on the Report List Help page.

The following sections contain the layout of the header, detail, and trailer records for the Fixed Width extract version of the output. Each extract output will include one header record, one, more or no detail records, and one trailer record. These sections also include the layout of the detail record for the Comma Delimited extract version of the output. There are no header and trailer records associated with the Comma Delimited extract output. Each version of the extract requested online will include one or more detail records.

The record layout tables contain the position, data element name, description, field format, and field length as they will appear on the fixed width extract file. It also contains the data element name (with related description), and field format as they will appear on the comma delimited extract file (data elements on this extract will be separated by commas).
